**Notes:**

- <sup>(1)</sup>The **Base** version includes the ability to solve linear and integer models. This includes a Primal and Dual Simplex algorithms.
- <sup>(2)</sup>The **Barrier** option adds an alternative method of solving linear models that may be faster than the linear solvers included in the Base version and the capability to solve Quadratic and Quadratically constrained models. This option includes a Barrier/Interior Point algorithm.
- <sup>(3)</sup>The **Nonlinear** option adds the ability to solve general nonlinear models to a local optimum. This option includes a GRG based algorithm.
- <sup>(4)</sup>The **Global** option adds a guaranteed global solver capable of finding globally optimal solutions and a Multistart capability for finding good solutions to nonlinear models efficiently. **This option requires the Nonlinear option.**
- <sup>(5)</sup> The **Stochastic Programming** option adds the ability to solve optimization models with uncertain elements via multistage stochastic linear, nonlinear and integer stochastic programming.

**Introductory Training** - Special training fees for one introductory onsite course when requested at the same time of purchase Lindo Products – £800.00/half-day or £1,500.00/full-day. Normal cost for on-site training is £2,000.00/day. Travel and subsistence expenses will be added to the cost of training.

Upgrades of a product to the newest release are available for 20% of the current list price for the product being updated.

Concurrent User Network Licenses are priced at double the standard single user prices given above.
