

OxMetrics 6.0 Academic Price List - USD

Windows, Mac and Linux

Definitions

OxMetrics - A modular software system providing an integrated solution for the econometric analysis of time series, forecasting, financial econometric modelling and for the :
Ox Professional, PcGive, STAMP, G@RCH, SsfPack & TSP/OxMetrics. Users can buy each module individually or a combination of modules as described below. For details of TSP/OxMetrics please see or request separate price list.

OxMetrics Enterprise 6.0 - Comprises a combination of the core modules of OxMetrics: *Ox Professional, PcGive, STAMP and G@RCH*. Purchases of OxMetrics Enterprise 6.0 includes the first year's support and maintenance free of charge. Note: Maintenance is not available for individual modules when purchased separately.

Ox Professional 6.0 - Object-oriented matrix programming language. Ox 6 is now multi-threaded and will hence optimize multi processor functionality for all OxMetrics users. Users of PcGive and G@RCH are now be able to output Ox code, and hence facilitate any associated programming they may need.

PcGive 13.0 - Modern econometric modelling, easy to use and flexible. Now includes Autometrics, for automated general to specific modelling. This also incorporates PcNaive for Monte Carlo simulations, which was previously a separate module.

STAMP 8.2- Structural time series modelling: includes time series techniques, using Kalman Filter, but easy to use and requires no prior knowledge of the Kalman Filter technology. This now includes multivariate functionality.

G@RCH 6.0- Estimation and forecasting of a very wide range of univariate and multivariate ARCH - type models.

SsfPack 3.0 – A suite of C routines for carrying out computations involving the statistical analysis of univariate and multivariate models in state space form. SsfPack is a set of libraries additional to the Ox libraries. Users need Ox to run SsfPack in the OxMetrics environment. SsfPack is not included in modules which receive 20% discount on multiple purchasing. FOR PRICING, PLEASE REFER TO SEPARATE PRICELIST.

TSP/OxMetrics – Please contact our sales department for details on prices and latest version. TSP/OxMetrics is not included in modules which receive 20% discount on multiple purchasing. FOR PRICING, PLEASE REFER TO SEPARATE PRICELIST.

Purchasing Options

Purchases of multiple modules - Users purchasing two or more individual modules of either *Ox Professional*, *PcGive*, *G@RCH* or *STAMP* at the same time will receive a 20% discount. This discount applies to any combination and to any number of new users. Applicable discount can apply to licenses with differing numbers of users. We reserve the right to limit the total discount to the price of the cheapest individual product.

Purchases of multiple platforms - A single-user requiring a second platform will be charged an additional 50% of the end-user price. Multiple users will be required to purchase the required number of copies (e.g. a 5-user can be 3-Windows & 2-Mac copies). Site licenses can install any combination of platforms at no additional cost.

Maintenance - Users with valid software maintenance will automatically receive free upgrades to new releases of OxMetrics Enterprise and the modules contained within the Enterprise package. All new purchases of OxMetrics Enterprise includes the first years' maintenance FREE of charge. After the first year, annual maintenance charges will apply. Users upgrading to OxMetrics Enterprise from either a previous release or from single or multiple modules of Ox Professional, PcGive, G@RCH or STAMP do not qualify for the free maintenance period. Prices for the continuation of maintenance are shown within the following price schedules and are charged additionally to the cost of the software. Maintenance holders receive a 10% discount on all public OxMetrics public attendance and On-site training courses.

Site Licenses - Unlimited Site Licenses cover all users at any one site (defined as a single building unless otherwise agreed in advance) for one institution. Unlimited Site Licenses Plus is available to Academic Institutions that, when under maintenance, additionally allow the institution to distribute copies of the software to all students.

Global licenses - Licenses covering multiple sites and is generally, unless otherwise agreed in advance) applicable in cases where users are based in more than one country. The cost of these licenses is double the cost of the relevant Site License.

Introductory Training - Special training fees for one introductory onsite course when requested at the same time of purchase of OxMetrics are available. Suggested prices for courses that Timberlake run from our portfolio start at \$1,440.00/half-day or \$2,700.00/full-day. Normal cost for on-site training starts at \$4,500.00/day Please contact us for further details or to discuss your requirements. Travel and subsistence expenses will be added to the cost of onsite Training. Timberlake Consultants also offer FREE Webinar demonstrations of new features available in the current version of OxMetrics as well as web-based training courses. Please contact us for further information and prices.

Purchases Include - One OxMetrics 6 CD-Rom plus one set of applicable manuals for a single user. One OxMetrics 6 CD-Rom and 2 sets of applicable manuals for any purchase of 5 or more licenses.
