

SsfPack 3.0 Price List - Euro

Windows, Mac & Linux

Definitions

SsfPack 3.0 – A suite of C routines for carrying out computations involving the statistical analysis of univariate and multivariate models in state space form. SsfPack is a set of libraries additional to the Ox libraries. Users need Ox Professional to run SsfPack in the OxMetrics environment.

Ox Professional 6.0 - Object-oriented matrix programming language. Ox 6 is now multi-threaded and will hence optimize multi processor functionality for all OxMetrics users. Users of PcGive and G@RCH are now be able to output Ox code, and hence facilitate any associated programming they may need.

STAMP 8.2- Structural time series modelling: includes time series techniques, using Kalman Filter, but easy to use and requires no prior knowledge of the Kalman Filter technology. This now includes multivariate functionality.

Purchasing Options

Purchases of multiple platforms – A single-user requiring a second platform will be charged an additional 50% of the end-user price. Multiple users will be required to purchase the required number of copies (e.g. a 5-user can be 3-Windows & 2-Mac copies). Site licenses can install any combination of platforms at no additional cost.

User Support - User Support is available for SsfPack 3. Please contact us for more information and prices. User Support is not included within the new price of SsfPack 3.

Site Licenses - Unlimited Site Licenses cover all users at any one site (defined as a single building unless otherwise agreed in advance) for one institution. Unlimited Site Licenses Plus is available to Academic Institutions that, when under maintenance, additionally allow the institution to distribute copies of the software to all students.

Global licenses - Licenses covering multiple sites and is generally, unless otherwise agreed in advance) applicable in cases where where users are based in more than one country. The cost of these licenses is double the cost of the relevant Site License.

Introductory Training - Special training fees for one introductory onsite course when requested at the same time of purchase of OxMetrics are available. Suggested prices for courses that Timberlake run from our portfolio start at £800.00/half-day or £1,500.00/full-day. Normal cost for on-site training starts at £2,500.00/day Please contact us for further details or to discuss your requirements. Travel and subsistence expenses will be added to the cost of onsite Training. Timberlake Consultants also offer FREE Webinar demonstrations of new features available in the current version of OxMetrics and SsfPack as well as web-based training courses. Please contact us for further information and prices.
